

1 ABSTRACT OF THE DISCLOSURE

2
3 The invention includes a method, a computer readable medium and an apparatus for
4 correcting a half tone pulse width count. In one respect, the invention includes a method for
5 correcting a half tone pulse width count. The method comprises determining the half tone
6 pulse width count, determining a half tone level, and calculating a corrected pulse width count
7 based on the half tone pulse width count and the half tone level. In another respect, the
8 invention includes a computer readable medium on which is embedded computer software
9 capable of automatically correcting a half tone pulse width count. The software performs the
10 above method. In yet another respect, the invention includes an apparatus for performing the
11 above method.
